

## **Clinical Waste Survey**

1. What is the current approach to clinical waste training in your organisation?

One-2-One with the Waste Minimisation Officer when necessary  
On the job  
Waste management representation at Trust Induction

2. Would a dedicated e-learning clinical waste training course, covering for example legal compliance, segregation, health & safety inc. infection control be of interest to you or your organisation?

A waste management e-learning is currently being developed internally by the waste minimisation officer.

3. Would you consider an e-learning course to be a suitable approach to re-training and/or refresher training?

Yes

4. Who might require such a training approach:

Support personnel such as waste handlers and Porters  
Clinical and medical staff

5. What would your estimate be of the numbers of individuals at your organisation who would need to undertake any e-learning clinical waste training course?

50+
