Orthopaedics
Your Guide to services at WWL

Wrightington’s reputation for excellence attracts highly talented clinicians who specialise in hip, knee, shoulder, hand, wrist and foot and ankle surgery. We have 37 outstandingly talented Orthopaedic Consultants; providing a world class service in a local setting.

We have an international reputation for excellence in Orthopaedics

We are ranked 1st in the whole of the UK for low infection rates within the NHS.

98% of our patients would recommend us

Our Friends and Family patient survey indicated that 98% of our patients would recommend us.

The quality of our surgical operations means that the need for additional surgery is below the national average which means that you have a much higher chance of experiencing long term results.

We have the lowest infection rates in the UK

...and we do all this whilst performing some of the highest rates of surgery in the UK

The quality of our surgical operations means that the need for additional surgery is below the national average which means that you have a much higher chance of experiencing long term results.

We carry out more Orthopaedic activity than any other hospital in the North West (over 3,000 hip and knee surgery replacements each year)

- First in England for volume of hip replacements
- First in the UK for volume of shoulder replacements
- Third in England for volume of knee replacements

We also ensure that we ring fence the beds we require for orthopaedic procedures meaning that once you have your appointment, we very rarely cancel it.

Our referral to treatment times are some of the shortest in the North West
