

Patient information Armed Forces & Veteran Aware

June 2024

Here at Wrightington, Wigan and Leigh NHS FT we are proud to say we are a Veteran Aware hospital.

Please let a member of staff know if you, or your spouse/partner, serve or have ever served in the UK Armed Forces so that we can best support your care needs.

Being flagged as a veteran in your NHS medical notes will help ensure you are able to access specific veterans' health services, such as those for mental health, hearing loss, limb amputation and wheelchairs.

All veterans are entitled to priority access to NHS care (including hospital, primary or community care) for conditions associated with their time in the armed forces (service-related). But this is always subject to clinical need and doesn't entitle you to jump the queue ahead of someone with a higher clinical need.

Improving care for veterans across the NHS

Wrightington, Wigan and Leigh NHS FT are a member of the Veterans Covenant Hospital Alliance, sharing and driving best practice in NHS care for people who serve or have served in the UK armed forces and their families, in line with the Armed Forces Covenant.

Armed Forces Covenant

The NHS is committed to the Armed Forces Covenant, which is a promise by the nation that those who serve or who have served in the UK armed forces, and their families, will be treated fairly. It has two key principles:

- The armed forces community should not face disadvantage compared to other citizens in the provision of public and commercial services.
- Special consideration is appropriate in some cases, especially for those who have given most such as the injured and the bereaved.

You and your families should not be at a disadvantage in accessing appropriate health services; for example, if you are on a waiting list and are moving.

The NHS always prioritises people with the most urgent clinical need. At the same time, we must recognise your health and social needs and act on them. We are working to make sure this happens.
