## Hearing Therapy Service

The Hearing Therapy Service is based within the Adult Audiology Department, at Thomas Linacre Centre and Leigh Infirmary. Hearing Therapy covers a range of management and rehabilitation options for people with a hearing loss, tinnitus and/or hearing aids.

### We can offer you:

1. Communication strategies to assist you to use effective communication tactics in an assertive way.
2. Lip-reading skills to provide further communication methods in difficult listening situations including background noise.
3. Auditory Training to help with sound processing skills.
4. Equipment advice for everyday life and work/ university environments.
5. Telephone training to develop confidence in using the telephone.
6. Assistance with applications to access to work, a scheme run by the Department of Work and Pensions which can provide funding towards equipment and support services to help you to gain and maintain employment.
7. Assistance with applications to University Disability Support services for equipment, note-taking, and communication support.
8. Rehabilitation techniques to support adjustment to, and maintenance of, hearing devices and new fittings, when appropriate.
9. Tinnitus Counselling and advice on techniques to help you manage tinnitus effectively.

Relaxation and assertiveness skills to help in difficult listening environments and situations that are challenging.

The Hearing Therapist will complete a follow up with you at the Transition clinic. The Hearing Therapist can discuss and assess your individual needs at this follow up, and then book further appointments, if necessary.

If you have any questions, please contact Elizabeth Hesketh, the Hearing Therapist on **0300 707 5667**.

## Swim Moulds

Swim moulds can be purchased within the department:

1 x swim mould = £48

2 x swim moulds = £84

Please discuss this with the Audiologist at your transition reassessment appointment.

## Hearing Aid Service and Maintenance

- Your hearing aids will be updated within the Adult Audiology service to ensure that they can be continually maintained and repaired. The colour of hearing aids provided is sand beige.
- If you move away for university, you may choose to move your care to your area of study, so that you have access to the local hearing aid service should you need any repairs or hearing assessments.
- If you are having any problems with the hearing aid or require a new ear mould, you can book a repair appointment, which is a similar process to the children's Audiology service.
- Your ear moulds require routine maintenance every 4-6 months. The Audiologist will discuss this in your transition reassessment and provide you with an Individual Management Plan which will include the department contact details.
- Alternatively, if you wear slimtubes you will be provided with an annual supply. The Audiologist will discuss this with you in your appointment.
- If a hearing aid is lost or damaged, there is a charge of £84 to replace it.

We look forward to meeting you at your Transition reassessment appointment.

## Ask 3 Questions

Become more involved in decisions about your healthcare. You may be asked to make choices about your treatment. To begin with, try to make sure you get the answers to three key questions:

1. What are my options?
2. What are the positives and negatives of each option for me?
3. How do I get support to help me make a decision that is right for me?
