Who is your Breast Care Nurse?

Your Breast Care Nurse is a highly qualified and experienced nurse who has specialised in the care and support of patients with breast problems.

- She works closely with the doctor involved in your care.
- The service she provides for you is confidential.

What does the Breast Care Service offer you?

- Information.
- Support and a listening ear.
- Counselling.
- Discussion of treatment options.
- Help with physical problems such as arm swelling or pain.
- Practical advice regarding bras, clothing, and breast forms.
- Information about breast reconstruction.
- Support for carers.

Where can you talk with Breast Care Nurses?

At the outpatient clinic, by appointment only.

Remember

The Breast Care Nurse Service is available to all patients who present with a breast problem.

It is an open-ended service which you can continue to use for as long as you need it.

Ask 3 Questions

Become more involved in decisions about your healthcare. You may be asked to make choices about your treatment. To begin with, try to make sure you get the answers to three key questions:

1. What are my options?
2. What are the positives and negatives of each option for me?
3. How do I get support to help me make a decision that is right for me?

How We Use Your Information

For details on how we collect, use, and store the information we hold about you, please see patient information leaflet, Ref. **Corp 006** How we use your information, this can be found on the Patient Information Leaflets page on the Trust website, see details on the front cover.

This leaflet is also available in audio, large print, Braille, and other languages upon request. For more information, please ask in the department/ward.
