Introduction

Thank you for attending for breast screening. Please read the following carefully, this will explain what happens next.

You will receive a letter to your home, normally within 2 to 3 weeks of your visit. If your mammograms are normal, then no further action is necessary, and you will be invited again for screening every 3 years until you have reached your 71st birthday.

What if I need to be recalled?

Your results may say further tests are required. Around 4 out of every 100 women screened are recalled for further imaging. You are more likely to be recalled after your first mammogram.

Most women that are recalled may have normal breast change or a benign (not cancer) condition.

If you do need to be recalled you will be invited to attend the Breast Screening Unit at the Thomas Linacre centre, Wigan, where you may have another mammogram, an ultrasound scan or a biopsy. A doctor will explain the reason you have been recalled.

I have reached the age of 71, what now?

Once you have reached the age of 71 you will no longer be automatically invited for screening, but you can still have a screening every 3 years by telephoning the Breast Screening Unit. Please contact the unit on one of the below telephone numbers to make an appointment.

0300 707 5899

What should I do if anything changes?

If you notice any changes in your breasts, at any time between the 3 yearly period, do not hesitate to see your doctor immediately.

A very small number of breast cancers do not show up on the initial screening or they may develop during the 3-year period, therefore the changes to look out for are:

- Any lump or thickening in the breast
- Any puckering or dimpling of the skin
- A change in the outline or shape of the breast
- Any nipple discharge or scaling of the nipple
- A nipple turning in on itself (inverted) compared with the way it used to be.

All these changes can have quite simple causes, but all need investigating.

If you have any queries, please feel free to contact us:

Ask 3 Questions

Become more involved in decisions about your healthcare. You may be asked to make choices about your treatment. To begin with, try to make sure you get the answers to three key questions:

1. What are my options?
2. What are the positives and negatives of each option for me?
3. How do I get support to help me make a decision that is right for me?

How We Use Your Information

For details on how we collect, use, and store the information we hold about you, please see patient information leaflet, Ref. **Corp 006** How we use your information, this can be found on the Patient Information Leaflets page on the Trust website, see details on the front cover.

This leaflet is also available in audio, large print, Braille, and other languages upon request. For more information, please ask in the department/ward.
