System definitions:

Clinical decision support in e-prescribing - within, or in conjunction with, its e-prescribing systems, Clinical Decision Support (CDS) assists prescribing clinicians in safely identifying suitable medicines, doses and titrations, for individual patients.

Observations - vital signs - a system for electronic recording at the bedside of patient vital sign data, together with a mechanism to include in the patient's electronic record.

Oncology e-prescribing - module or functionality that supports electronic chemotherapy prescribing, medication administration and dispensing activities.

Diagnostic imaging - electronic medical imaging systems providing the core capabilities to manage diagnostic images and associated reports.

If you are not entirely satisfied with this response, please do not hesitate to contact the Information Governance Department on email address provided. If we do not hear from you within 28 days, we will assume that we have been able to accommodate your request under the Freedom of Information Act 2000.

Yours sincerely,

Tabitha Gardner
Chief Finance Officer
