Dear Sir/Madam

You asked:

- Average waiting time for coil fitting (both copper & hormonal) for use as contraception across all sites that provide this service within your area of commission. The preferable time period is 2021 - present, if possible. If not, 2021 to the most recent data available will suffice.

We stopped performing this service in 2017.

- Longest waiting time for coil fitting (both copper & hormonal) for use as contraception across all sites that provide this service within your area of commission since 2013.

Between 2013 and 2017 the longest waiting time for coil fitting was 26 Weeks.

If you are not entirely satisfied with this response, please do not hesitate to contact the Information Governance Department on email address provided. If we do not hear from you within 28 days, we will assume that we have been able to accommodate your request under the Freedom of Information Act 2000.

Yours sincerely,

Richard Mundon
Director of Strategy and Planning
