Dear Sir/Madam

With reference to your request for information received on 6th August 2025, I can confirm in accordance with Section 1 (1) of the Freedom of Information Act 2000 that we do hold the information you have requested. A response to each part of your request is provided below.

In your request you asked:

1. Please confirm if the trust uses digital Remote Patient Monitoring and/or Virtual Ward solutions in Type 2 Diabetes

Paediatrics = Yes, sometimes use Continuous Glucose Monitoring Systems (CGMS) for patients, but do not do virtual ward solutions as our NPDA audit requires us to see patients face to face.

Adults = Yes, we use digital remote monitoring for some patients. We do not use Virtual ward solutions in Type 2 diabetes.

Community = No, we are currently not using digital remote patient monitoring, Continuous Glucose Monitoring Systems are used but this is not accessed remotely.

2. If yes, please confirm the name of the solution and its contract end date for each department

Paediatrics = depending on the CGMS we put a patient on, we will either use Libreview or Dexcom Clarity digital platforms to remotely review their glucose levels. These do not have a contract end date.

Adults = Dexcom, Glooko (subscription licence ends 31/01/2026) and Libreview. Dexcom and Libreview do not have an end date.

Community = N/A.

3. If paper-based, please advise of this also.

Paediatrics = if patients are not on CGMS, the Trust will ask them to record a home monitoring diary.

Adults = no paper notes utilised.

Community = N/A.

If you are not entirely satisfied with this response, please do not hesitate to contact the Information Governance Department via the email address provided. If we do not hear from you within 40 days, we will assume that we have been able to accommodate your request under the Freedom of Information Act 2000.

Yours sincerely,

KEVIN PARKER-EVANS
