Dear Sir/Madam

With reference to your request for information received on 12th November 2025, I can confirm in accordance with Section 1 (1) of the Freedom of Information Act 2000 that we do hold the information you have requested. A response to each part of your request is provided below.

In your request you asked:

Under the Freedom of Information Act 2000, I am writing to request information held by your Trust regarding incidents of lost, delayed, or unprocessed cancer referrals.

1. Patient Safety Incident Reports (Datix or equivalent system).

For the period 1 January 2022 to 31 December 2024, please state the total number of incidents recorded on your Trust's Datix (or equivalent incident reporting system) relating to lost, delayed, or unprocessed cancer referrals, including urgent suspected cancer ("2-week wait") referrals.

- For each such incident, please provide (where available and without breaching personal data exemptions):**
- The year and month of occurrence**
- Whether the incident generated a Patient Safety Incident Investigation (formerly termed SUI or serious untoward incident).**
- A brief description or summary of the incident category.**

The Trust is unable to provide this information as the information is not held in a reportable or structured format in our central system and records would have to be reviewed manually which would exceed the appropriate time limit. The Trust has to take into account the cost attributable to the time spent in locating, retrieving, and collating the information. We have therefore applied exemption Section 12 (4) (b) of the Freedom of Information Act 2000-beyond appropriate limit. The appropriate limit is set at £450.00 (18hrs @ £25 per hour).

There are no specific category relating to lost, delayed, or unprocessed cancer referrals, including urgent suspected cancer (“2-week wait”) referrals. The available categories are generic and identifying cancer-related incidents would require the review of 1,736 individual records. Which at an estimated 5 minutes per record, would take approximately 144 hours.

2. Serious Incidents / Serious Untoward Incidents (SIs/SUIs)/Patient Safety Incident Investigations For the same period (1 January 2022 – 31 December 2024) please provide the number of Serious Incidents (SIs)/ Serious Untoward Incidents (SUIs) or Patient Safety Incident Investigations recorded by the Trust that relate to lost, delayed, or unprocessed cancer referrals.

27.

For each SI/SUI, please include (where available):

- **The year and month of occurrence**
- **The category or title of the incident**
- **The recorded harm level, if known**

| Year and Month | Category | Level of Harm |
|----------------|--------------------|---------------|
