Dear Sir/Madam

With reference to your request for information received on 28th November 2023, I can confirm in accordance with Section 1 (1) of the Freedom of Information Act 2000 that we do hold the information you have requested. A response to each part of your request is provided below.

In your request you asked:

- 1) The number of patient safety incidents (as described by Patient Safety Incident Response Framework) and serious incidents (as described by the Serious Incident Framework) identified by your trust which have affected communications (including discharge summaries, clinic letters and anything similar) from your trust to GPs in your area in the past 10 years**

Please see response below.

- 2) How many communications (approximately) have been affected by each of these incidents**

There is no specific category on StEIS that would capture this information, this means that the Trust would need to analyse each investigation report to identify the information the requester has outlined. This information request would take over the legal timeframe to complete as there are approximately 500 incidents that would have to be reviewed from the past 10 years and each incident would take approximately 15 minutes to review.

Refusal Notice for question(s) - The information that you have requested is exempt under Section 12 of the Freedom of Information Act because it will take more than 18 hours to retrieve and extract the relevant information.

12. — (1) Section 1(1) does not oblige a public authority to comply with a request for information if the authority estimates that the cost of complying with the request would exceed the appropriate limit.

If you are not entirely satisfied with this response, please do not hesitate to contact the Information Governance Department via the email address provided. If we do not hear from you within 40 days, we will assume that we have been able to accommodate your request under the Freedom of Information Act 2000.

Yours sincerely,

Rabina Tindale
Chief Nurse & DPIC
