Energy Management System Contract(s) - Contract(s) relating to the organisation's energy management system. An energy management system (EMS) is a system of computer-aided tools used by operators of electric utility grids to monitor, control, and optimise the performance of the generation or transmission system.

If the organisation does not have an Energy Management System, please confirm when this will be implemented. It would be great if you mention the tentative date/month.

Energy Management System

- 1. Provider name**
- 2. Annual Spend**
- 3. Contract Duration (Including any extensions)**
- 4. Contract Expiry Date**
- 5. Contract start date**

6. **Contract Review Date**
7. **Contract Description – A description of the services provided.**
8. **Brand of the software**
9. **Total number of meter points for electricity:**

The Trust does not have an energy management system. There are no timescales for implementation of one.

Information intended for future publication.

(1) Information is exempt information if—

(a) the information is held by the public authority with a view to its publication, by the authority or any other person, at some future date (whether determined or not),

(b) the information was already held with a view to such publication at the time when the request for information was made, and

(c) it is reasonable in all the circumstances that the information should be withheld from disclosure until the date referred to in paragraph (a)

If you are not entirely satisfied with this response, please do not hesitate to contact the Information Governance Department via the email address provided. If we do not hear from you within 40 days, we will assume that we have been able to accommodate your request under the Freedom of Information Act 2000.

Yours sincerely,

Kelly Knowles
Operational Director of Finance
