

# NIHR Applied Research Collaboration Greater Manchester (ARC-GM)

# **OUR APPROACH**

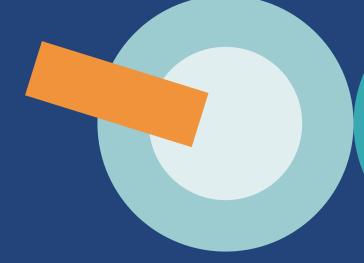

We are led by
Greater Manchester
health and care
priorities... working
with health and care
partners to address
their priorities

We co-produce...
applied health and care research projects with stakeholders and the people of Greater

Manchester

We have expertise... in applied health and care research methods and approaches

# **Research Themes**

Digital Health

**Economic Sustainability** 

**Healthy Ageing** 

Mental Health

**Organising Care** 

# **Cross Cutting Themes**

**Evaluation** 

Implementation Science

Public and Community Involvement and Engagement (PCIE)

**Capacity Building** 

Our mission is to foster a vibrant and inclusive research culture that produces timely, needs-driven, and transformative health and social care research for the benefit of communities locally and nationally.

#### Strategic Aim 1:

Strengthen communities and reduce health inequalities

#### Strategic Aim 2:

Drive prevention and early intervention

#### Strategic Aim 3:

Contribute to economic growth

#### Strategic Aim 4:

Support the delivery and economic sustainability of care

# THEME: STRENGTHENING COMMUNITIES

- Health inequalities
- Community resilience
- Place-based care
- Community assets
- Engaging marginalised groups
- Physical and mental health
- Social care
- Children, young people and families
- Healthy ageing

# THEME: PREVENTION AND EARLY INTERVENTION

- Health inequalities
- Early detection including primary care and screening
- Behavioural science
- Engaging marginalised groups
- Secondary prevention
- Multiple long-term conditions

# THEME: WORK, HEALTH AND PRODUCTIVITY

- Health inequalities
- Health-related drivers of economic inactivity
- Interventions to get people back to work and stay in work
- Employment-based interventions
- Women's health
- The links between health and economic growth

# THEME: CARE DELIVERY AND ECONOMIC SUSTAINABILITY

- Care inequalities
- Efficiency and integration
- Resources and needs
- Digital care
- Incentives and financing
- Care workforce

#### THEME: EVIDENCE GENERATION & SYNTHESIS

Health inequalities; rapid approaches; co-produced, mixed method, real-world evaluations; use of administrative data

#### THEME: IMPLEMENTATION AND KNOWLEDGE MOBILISATION

Health inequalities; accelerating the impact of proven innovation; enhancing delivery of care and services; de-implementation; innovation pipeline.

#### Partnerships and Knowledge Mobilisation

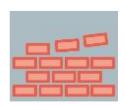

## **Partnerships**

- Co-production of research with the end users
- Doing research that meets the needs of those that it is for and about
- Doing research with those who have the greatest burden of disease Leveraging research income

# **Knowledge Mobilisation**

- Increasing the ability of <u>end-users of research</u> <u>knowledge</u> to identify reliable research evidence and use it
- Increasing the ability of <u>producers of research</u> <u>knowledge</u> to better understand the needs of the end-users and produce research that is relevant, timely and actionable;
- The need to develop productive, effective communication and <u>relationships between</u> <u>end-users and producers</u>, such that the communities are symbiotic and self-sustaining.

# Research Capacity Development

PhD and Post doc fellowships (stipend and fees)

Pre-doctoral fellowships – 50% backfill

Internships -30days of 6-9mths

Bespoke workshops e.g., Rapid Evidence Synthesis; Rapid evaluation; Implementation Frameworks Social Care

Research Champion Roles/ Internships/ Pre-doc fellowships

Dementia Internships

**Knowledge Mobilisation Champions** 

# Public and Community Involvement and Engagement

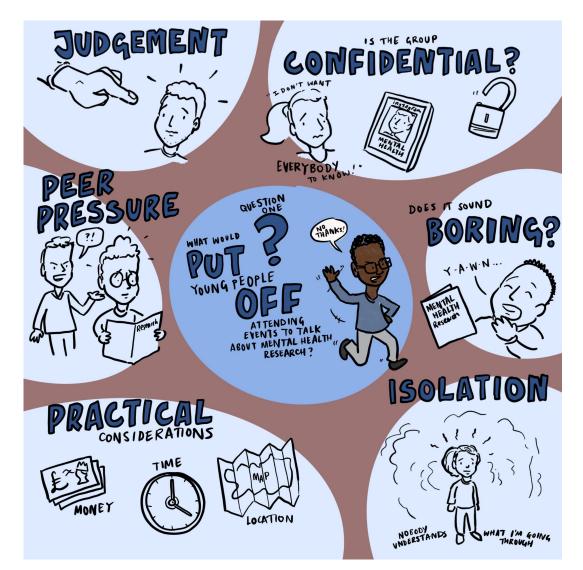

Public Panel and Young Person's Advisory
Group

GM Public Involvement and Engagement Forum (PCIE Lead and VCSE organisations)

Research Engagement Network Development
Programme
VCSE / Research Infrastructure

# Our fabulous Young People's Advisory Group #My Voice Matters

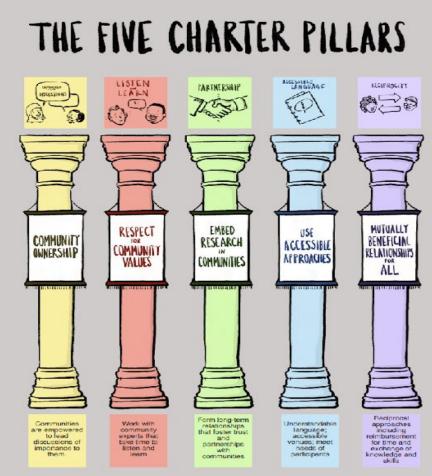

# The Greater Manchester Research Engagement Network

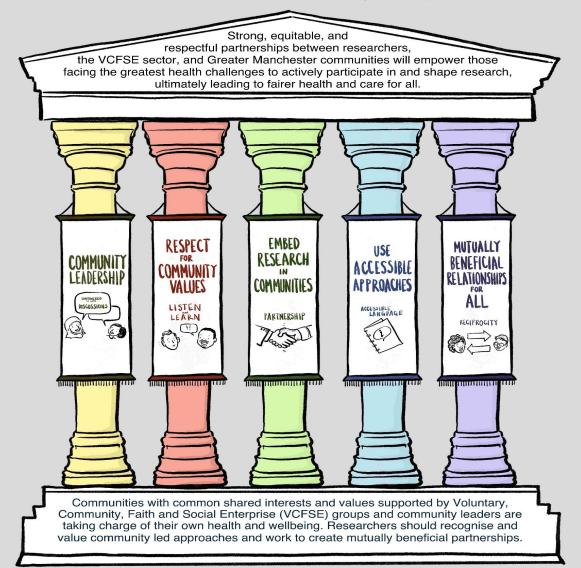

# THE GREATER MANCHESTER RESPECTFUL RESEARCH CHARTER

### 1. Community leadership

Meaningful research that matters most to people it is about and for

## 2. Respect for community values

Communities know their neighbourhoods. Listen & Learn first to understand people and their needs.

#### 3. Embed research in communities

Develop long-term relationships between researchers & communities, fostering trust & collaboration for future projects

## 4. Accessible approaches

Community involvement opportunities should be accessible to all & reach people & groups according to research

## 5. Mutually beneficial relationships for all

Working together in a way that rewards & values contributions building sustainable, mutually respectful & productive relationships.
