

Vision for the Future

- How do we continue to integrate this research **momentum** with our collective aims and ways of working?
- **Who** needs to know more?
- **Further opportunities** to connect and collaborate? What areas are you most interested in and want to explore further?
- What **research ready ideas** within our partnerships that could be developed with support?
- Developing **capacity, governance, ethics, confidence** and research function across the forum and with key community partners.
- Which research topics are **most important** for children and young people's health?
