

Occupational Therapy Sensory Processing Parent Workshops

The Community Paediatric Occupational Therapy Service are now running sensory processing workshops for parents and carers of children aged 1-5years. The workshop will explore what sensory processing is, how a child uses sensory information to develop functional skills of childhood and offer advice and strategies to best meet the child's perceived sensory processing preferences.

To book a place on a workshop parents should contact the therapy admin team on 0300 707 1476 and indicate which of the following dates they would like to attend.
