- **Version:** 5
- **Leaflet title:** Gastroscopy with Sedation (Patient Discharge Information)
- **Last review:** July 2025
- **Expiry Date:** July 2027

Patient discharge information for gastroscopy procedure with sedation

The sedation drugs can remain in your system and have effects up to 24 hours after your procedure. Although you may feel awake, these drugs can impair your judgement, balance, and reaction times. For this reason, we will ensure that you have a responsible adult to take you home after your procedure and look after you for the next 24 hours.

For the next 24 hours you **MUST NOT**:

- Drive your car. Your insurer will not cover you for this period following sedation.
- Operate machinery (including any potentially hazardous kitchen appliances).
- Climb ladders.
- Sign any legally binding documents.
- Drink alcohol. Alcohol will increase the effect of any sedative remaining in your body.

For the next 24 hours you **MUST**:

- Rest for the whole day and avoid strenuous activity.
- Take your medications as normal unless you have been told otherwise.
- Have someone with you in case of any problem arising from the effects of sedation.
- Have someone to help you if you care for children or elderly sick relatives.

You can usually eat and drink normally after you have been discharged. It is not unusual to have some wind and mild cramps after the procedure.

If you suffer with any of the following, please contact us for advice straight away:

- Severe abdominal or chest pains
- Develop chills or a fever
- Persistent vomiting
- Difficulty breathing

Contact Details

- **Working hours 8am to 5pm:** Endoscopy Unit on 01942 264236
- **Out of working hours 5pm to 8am:** Shevington Ward on 01942 822597
