- Leaflet Ref: CM 325
- Version: 1
- Leaflet title: Transition to Community Neuro and Stroke Team - Neuro Pathway
- Date Produced: August 2024
- Expiry Date: August 2026

Introduction

This patient information sheet provides further details for individuals who are moving from paediatric services to adult services- Community Neuro and Stroke Team. The information detailed in this information sheet accompanies the Community Neuro and Stroke Teams Generic Service Leaflet.

Who are we?

We are a multidisciplinary team who work closely with other services to facilitate a holistic approach to your care to support the transition from paediatrics to our service. Services **may** include:

- General Practitioner
- District Nurses
- Surgical Appliances
- Social services
- Current and/or future place of education
- Current and/or future place of employment
- Tertiary neurology centres i.e. Alder Hey/ Manchester Children's Hospital, Walton Centre, Salford Royal Hospital.

What happens now?

- During transition, we will liaise with the paediatrics team to obtain a handover and if required, arrange a joint face-to-face appointment to discuss your current needs and goals.

- Following this appointment, we will identify which professions would need to be involved in your care.

- We are a goal-based service and will work with you to establish your individualised values and goals.

Where will I be seen?

- We typically deliver input within the home environment.

- Where appropriate, we can also deliver input within the outpatient setting, with clinics based at various premises across the Wigan Borough.

Where there are no identified/current needs or goals:

- A referral to our service is not required where there are no identified/current needs or goals; however, should your needs change in the future, you can contact us to discuss if our input would be appropriate.
